since 1995

## Legal assistance in Ukrainian ports\*

\*on shipowners' side

# What we are doing **for shipowners and P&I clubs** every day

Protecting the shipowner's interests during port procedures, ensuring compliance with shipowners' anti-corruption policy using "zero tolerance" approach to facilitation payments

Writing of Instructions/Memos for vessels masters/shipowners on how to counteract the government bodies illegal actions

Representation of shipowner's interests in legal relations with sea port authority (port dues) and port terminals (demurrage matters)

Protecting the shipowners' and vessel master's interests in court proceedings in disputes as to recovery of inflicted damage and/or imposed fines

# What shipowners **achieve**

Full legal support during inspection with attendance of the vessel's board and provision of the shipowners and vessels masters with on site and written consultations/instructions

Representation of shipowners' and vessels masters' interests in court proceedings in disputes with state authorities and economic agents

Protection of interests in disputes with sea port authorities and port terminals

Written guidance on counteraction to the government bodies illegal actions

# Case-study in practice of **Interlegal**

## Interlegal defended the Shipowner's interests in the conflict with port authorities

06.04.18

The issue of lawful actions committed by port authorities in respect of vessels flying under the foreign flag is always vital in Ukraine. Interlegal experts settled one more conflict related to actions of "Ukrtransbezpeka" officers, in particular, Port State Control and Harbour Master Service, and provided legal assistance to the Shipowner in the Vessel departure.
