Our experts, having vast experience in state procurements, will help your company to find a solution of a complex situation, to be aware of the latest modifications in national legislation and practice of applying thereof.

E-COMMERCE

What do we offer: tender consulting

- Creating the bidder's personal account;
- Analysis of certain announcements in order to determine prospects for participation in procurement;
- Asking questions to the customer in order to clarify procurement terms;
- Stating requirements for the customer in order to eliminate flaws or discrimination criteria in tender documentation;
- Drafting the documents for tender offer in accordance with announcement requirements;
- Legal support during the tender;
- Drafting the documents for the winner's tender offer in accordance with announcement requirements;
- Stating requirements for the customer in order to disqualify winner of the tender;
- Legal support for signing the contract (agreement);
- Drafting complaints to the Antimonopoly Committee of Ukraine in order to eliminate discrimination terms of tender documentation or to appeal against winner (competitor - opponent) of the procurement;
- Filing a lawsuit to the court, followed by legal support of the court proceedings;
- Drafting official applications to the State Audit Service of Ukraine, Dozorro, etc. upon revealed violations in procurement procedure;
- Initiating commencement of criminal proceedings at law enforcement bodies (optionally).

Work commencement stages:

Discussing your tasks, goals and required terms

Signing the Legal Service Agreement

Drafting the necessary tender documentation

Holding successful tender

If the Client has no representative office in Ukraine, we can represent the Client on the basis of power of attorney, (throughout all tender process) using our electronic keys. In this case, all documentary actions are carried out in the interests of the Client.

How does it work?

When the Client takes part in a tender and wins, and there are no procedural issues with the appeal of some stage of public procurement. In other words, the public procurement goes favorably for the Client.

BLOCK I

- ✓ Consulting upon the issues of foreign company's participation in a certain Ukrainian tender (qualification features etc.);
- ✓ Foreign bidder's due diligence for compliance with the current legislation of Ukraine.

BLOCK II

- ✓ Drafting a full set of documents for participation in tender;
- ✓ Full legal support during the tender;
- ✓ Legal support for signing agreement under the tender results (given that the tender caused no problems for the Client).

BLOCK III (pre-trial)

- ✓ Appeal against tender procedure at the Antimonopoly Committee of Ukraine (complete support of the process);
- ✓ Drafting applications to the State Audit Service of Ukraine, Dozorro etc. upon revealed violations of procurement procedure;
- ✓ Initiating commencement of criminal proceedings (optionally).

BLOCK IV (court)

- ✓ Full legal support of the court proceedings (at first, second and third instances) upon recognizing the tender results (or the signed agreement with a competing opponent) as unlawful.

When the Client participates in a public procurement, but does not win, for example, due to unfair play of some interested party. Also, the Client decides to appeal the illegal actions of a third party either in pre-trial order or in court.
